Welcome to our Transitional Year Residency Program at Blake Medical Center in beautiful Bradenton FL. We are an ACGME-accredited one-year program with 12 positions available per year. Some of the exciting rotations we offer include Emergency Department, Intensive Care Unit, Ambulatory Clinic, and Internal Medicine with options for electives on services such as Trauma and Burn. Residents also have a two-week rotation with the Quality Department to help broaden their exposure to Quality Improvement, Research, and Administrative tasks.

At Blake Medical Center, you will receive outstanding training focused on providing quality education with knowledgeable, engaged staff. The program director will work directly with each resident to fulfill the requirements for a clinical base year in his or her chosen field. Our program is designed to provide residents with the educational experiences needed to prepare them for the next level of post graduate medical education training. Our program, faculty, and hospital are committed to providing a quality educational experience that will prepare our graduates for their future specialty residency program. We have a robust didactic program that includes morning report, daily noon conferences, as well as monthly Journal Club, M & M Conferences and Grand Rounds.

Blake Medical Center is a Level II Trauma center, 383 licensed bed facility with over 72,000 patients treated annually. We have a Comprehensive Stroke Center, Heart and Valve Institute, Hyperbaric Medicine, Inpatient Rehab Unit, Complex Hand Repair, Joint Care Center, Robotic Surgery and a Sleep Disorders Center.

I invite you to explore our website. We look forward to the opportunity to show you all that Blake Medical Centers Transitional Year Residency Program has to offer. We wish you the best of luck in this important next step in your career.

BlakeMedicalCenter.com

Blake Medical Center is a 383-bed, Joint Commission accredited, tertiary hospital providing award-winning care. Blake provides the community a verified Level II Trauma Center, the only Trauma Center in Manatee County. The hospital also provides one of only six burn centers in the State. Additionally, Blake offers ER 24/7®, a Joint Replacement and Spine Institute, Heart and Vascular Center, Breast Care Center, Limb Saving Institute, Lung Care Center, Advanced Primary Stroke Center, premier neuroscience services, cancer care, inpatient and outpatient rehabilitation, and physical therapy services, complex hand repair, and 24/7 hyperbaric medicine. Blake's extensive range of surgical services includes metabolic and bariatric, microvascular, open heart, neurological, colorectal, urologic, and general surgery. In addition to the Transitional Year Residency, Blake Medical Center's Graduate Medical Education program also includes an Internal Medicine Residency, as well as an Infectious Disease Fellowship, and is affiliated with the USF Morsani College of Medicine.

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
